# Ideation Phase Brainstorm & Idea Prioritization Template

Date	19 -10- 2022
Team ID	PNT2022TMID03505
Project Name	IoT Medicine Reminder
Maximum Marks	4 Marks

Step-1: Team Gathering, Collaboration and Select the Problem Statement

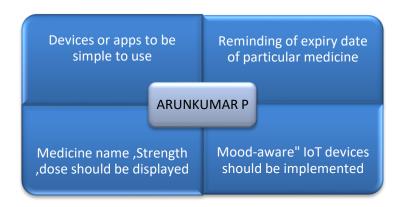

1:

## **DEFINE PROBLEM STATEMENT:**

A medicine reminder app designed for people who frequently forget to take their medications. You may also keep track of your appointments. Its parental feature distinguishes it from other apps on the market, allowing you to keep track of and remotely assist your loved ones who find it difficult to utilize such an app with their reminders.

Step-2: Brainstorm, Idea Listing and Grouping

## 2:BRAINSTORM

#### Arunkumar

Set medication reminders once and it should be up to date

The application should include digital calendar

#### Praveenkumar

It should be implemented in smart watch or other wearable devices

In abnormal health situation smart watch should auto-dial Emergency contact

### Yogeshwaran

It should also contain audio via reminder.(fo blind people)

Medicine should have QR codes which should have medicine information

#### Poovendar

To keep track of their medication regimens or appointments

Application should be customizable

## **3:GROUP IDEAS**

- >It should be implemented in smart watches or other wearable devices.
- >Set medication reminders once and it should be up to date.
- >Medicine name,Strength,dose should be displayed.
- >It should operated in offline mode also
- >Application should alert to refill the medicine

**Step-3: Idea Prioritization** 

## 4: Prioritize
